#### Como reconhecemos imagens?

**ANALISAR PIXELS?** 

**BUSCAR CARACTERÍSTICAS?** 

#### Convolutional Neural Networks

A ideia principal por trás das CNNs é simular o modo como o cérebro humano identifica padrões visuais.

As CNNs são compostas por camadas de neurônios artificiais, chamados de "mapas de características".

#### Redes neurais convolucionais

PASSO 1: Convolution

PASSO 2: Max Pooling

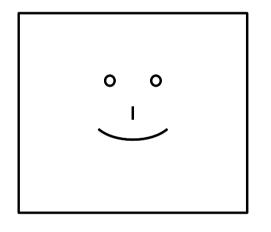

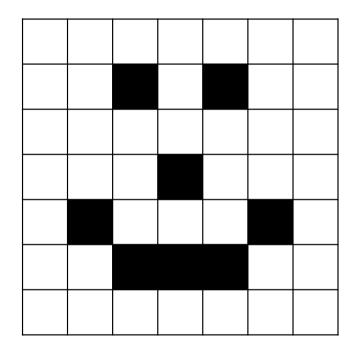

**ETAPA 3:** Flattening

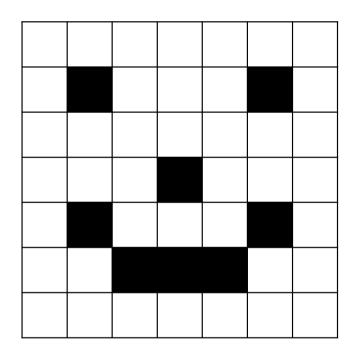

PASSO 4: Full Connection

#### Convolutional Neural Networks
